

109th Congress – second session

AFL-CIO 2006 House Scorecard

2006 House Final Voting Record

1. **LOBBYING REFORM**—H.R. 4975—House Republican leaders reacted to the Jack Abramoff lobbying scandal with a weak package of reforms that does very little to curtail the ability of corporations and wealthy special interests to exert improper influence on the legislative process. Public records show that corporations outspend labor by nearly 50 to 1 in lobbying expenses. The AFL-CIO had urged the House to ban gifts from individuals who have an interest in legislation before Congress, limit lavish congressional trips paid for by lobbyists and prohibit congressional travel on corporate-owned jets. Although the bill temporarily modifies some rules on congressional travel and expands the information that members of Congress and registered lobbyists are required to report, it also contains new restrictions on the ability of workers, consumers and other ordinary Americans to lobby Congress and to participate in grassroots politics. H.R. 4975 passed May 3 on a 217-213 vote. **Y=W; N=R** (R:209-20; D:8-192; I:0-1)
2. **TAX RECONCILIATION/TAX CUTS FOR THE WEALTHY**—H.R. 4297—This \$70 billion tax cut for the wealthy is the fifth major tax reduction pushed by President Bush; all four benefit the rich far more than working families. Nearly half of the benefits in H.R. 4297 benefit households with income of more than \$1 million, and 55 percent of the cuts go to the 3 percent of households with income above \$200,000. Contrary to Bush administration claims that the bill benefits middle-income taxpayers, the three-quarters of households with incomes below \$75,000 would receive just 5 per cent of the tax benefits, and 68 percent of households would receive no tax benefits at all. The bill passed May 10 on a 244-185 vote. **Y=W; N=R** (R:229-2; D:15-182; I:0-1)
3. **BUDGET RESOLUTION**—H. Con. Res. 376—The Bush budget plan for fiscal year 2007 calls for substantial cuts in entitlements like Medicare and Medicaid, and discretionary programs that strengthen and improve jobs, health care and education. But even these proposed cuts are not enough to offset the huge tax cuts called for by the White House. In fact, the budget resolution adds \$266 billion to the deficit over the next five years. Specifically, the House plan cuts nondefense discretionary funding over a five-year period by \$160 billion below the amount needed to maintain these services at their current levels. These cuts will result in a significant loss of federal support for education, veterans' medical care, law enforcement, transportation and other services vital to millions of Americans. The resolution passed May 18 by a count of 218-210. **Y=W; N=R** (R:218-12; D:0-97; I:0-1)
4. **FAA BARGAINING**—H.R. 5449—The Federal Aviation Administration (FAA) walked away from the bargaining table with the nation's Air Traffic Controllers union (NATCA) on April 5. The FAA announced that in 60 days it would

- unilaterally impose a contract that cuts the pay of current and future controllers, cuts pensions and could prompt thousands of controllers to retire, leaving the agency shorthanded. Reps. Steven LaTourette (R-Ohio) and Frank LoBiondo (R-N.J.) introduced legislation to block the FAA's action and provide for a resumption of contract negotiations. The bill was brought up under a special rule that requires a two-thirds majority for passage. The bill failed to pass June 7 on a 271-148 vote. **Y=R; N=W** (R:76-148; D:194-0; I:1-0)
5. **MINE SAFETY**—S. 2803—More coal miners were killed on the job in the first five months of 2006 than in any full year since 2001. Coal mine safety advocates said the Bush administration and the federal Mine Safety and Health Administration had failed to strengthen safety regulations and failed to strongly enforce the regulations on the books. In May, the Senate passed the Mine Improvement and New Emergency Response (MINER) Act (S. 2803). The House considered S. 2803 under procedural rules that did not allow for amendments. Rep. George Miller (D-Calif.) objected to this suspension of the rules, which prevented him from offering amendments to improve the bill. S. 2803 requires coal operators to develop and implement accident-response plans that mandate additional oxygen, improved communication and tracking and enhanced training. The bill also calls for these standards to be upgraded as new technology becomes available, requires ready availability of mine-rescue teams, establishes stronger standards for sealing abandoned mine areas, calls for research and recommendations on belt flammability and puts more teeth in mine safety enforcement by enhancing penalties for flagrant violations and setting mandatory minimum penalties for the most serious violations. The House passed S. 2803 on June 7 by a 381-37 count. **Y=R; N=W** (R:219-4; D:161-33; I:1-0)
 6. **AMTRAK FUNDING**—H.R.557—The Bush administration's fiscal year 2007 budget proposal would cut funds for Amtrak so deeply that it would force the nation's passenger railroad into bankruptcy and cost thousands of jobs. A amendment offered by Reps. Steven LaTourette (R-Ohio) and James Oberstar (D-Minn.) would provide the rail passenger system with an additional \$214 million. The amendment passed June 13 on a 266-158 vote. **Y=R; N=W** (R:71-154; D:194-4; I:1-0)
 7. **FOREIGN CONTROL OF U.S. AIRLINES**— H.R. 5576—Shortly after the Bush administration was pressured to withdraw its approval of the deal that would have turned over management of U.S. ports to a Dubai company, the Department of Transportation announced it was going ahead with a plan to relax federal rules that prohibit foreign ownership of U.S. airlines. On June 14, Reps. James Oberstar (D-Minn.), Frank LoBiondo (R-N.J.) and Ted Poe (R-Tex.) offered an amendment to the transportation appropriations bill to prevent this rule from going into effect during fiscal year 2007, thus preserving U.S. jobs and protecting national security. The amendment passed June 14 on a 291-137 vote. **Y=R; N=W** (R:97-131; D:193-6; I:1-0)

8. **ESTATE TAX CUTS**—H R. 5638—In 2005, the House voted to permanently repeal the federal estate tax, a tax cut that would cost nearly \$1 trillion between 2012 and 2021 but would benefit fewer than the wealthiest 0.5 percent of U.S. families. The media campaign to repeal the estate tax has been bankrolled by 18 wealthy families whose net worth exceeds \$185 billion. The Senate rejected the total repeal of the estate tax, but the House tried again with a slightly scaled back version that would exempt estates of less than \$5 million for an individual (\$10 million for a couple), while reducing taxes on larger estates. The so-called “scaled-back” bill would still cost \$774 billion, threatening critical domestic programs that are already being squeezed as a result of earlier Bush tax cuts for investors and wealthy families. The bill passed June 22 on a 269-156 vote. **Y=W; N=R** (R:226-2; D:43-153; I:0-1)
9. **LINE-ITEM VETO**—H.R. 4890—In his State of the Union message, President Bush asked Congress to give him unprecedented authority to propose canceling (or “vetoing”) specific provisions of spending, tax and other legislation that he had already signed into law. However, improvements in programs benefiting millions of low-income children or elderly people could be vetoed, while new tax loopholes benefiting a few wealthy investors or large corporations would be immune. The line-item veto is not a substitute for the hard work of setting fiscal priorities and addressing the nation’s real economic problems, including the lack of affordable health care, declining pension coverage and the continued offshoring of good jobs. The bill passed June 22 on a 247-172 vote. **Y=W; N=R** (R:212-15; D:35-156; I:0-1)
10. **MINIMUM WAGE/EDUCATION CONFERENCE**—S. 250—As pressure continued to mount for a clean vote to raise the minimum wage to \$7.25 an hour, Rep. George Miller (D-Calif.) offered a motion to instruct conferees meeting on an unrelated education bill (S. 250) to include the minimum wage increase in that bill. The nonbinding motion passed overwhelmingly, garnering every Democrat and 64 Republicans. This vote sent a signal to the Republican leadership, which had so far been resisting efforts to bring up the minimum wage increase, to begin making plans to have a minimum wage vote. The motion passed July 12 on a 260-159 vote. **Y=R; N=W** (R:64-159; D:195-0; I:1-0)
11. **VOTING RIGHTS ACT/STATE AND LOCAL PLANS**—H.R. 9—The House rejected an attempt to gut one of the key provisions of the Voting Rights Act (VRA) when it defeated an amendment by Rep. Charles Norwood (R-Ga.) to effectively repeal Section 5 of the act by replacing the formula used to determine which jurisdictions are required to have proposed changes to election plans pre-cleared by the federal government. The amendment failed July 13 on a 96-318 vote. **Y=W; N=R** (R:95-124; D:1-193; I:0-1)
12. **TRADE/OMAN FREE TRADE AGREEMENT**—H.R. 5694—The Oman Free Trade Agreement expands the failed model of the North American Free Trade Agreement (NAFTA) and Central American Free Trade Agreement (CAFTA).

Like NAFTA and CAFTA, the Oman agreement does not contain adequate environmental protections or enforceable protections for such core worker rights as the freedom of association. Oman is not a democracy, and its workers are unable to form independent unions or to bargain collectively. At the same time, the agreement allows any company incorporated in Oman to sue the U.S. government, undermining the ability of state and local governments to protect public health, strong communities and the environment. The bill passed July 20 on a 221-205 vote. **Y=W; N=R** (R:99-28; D:22-176; I:0-1)

13. **ESTATE TAX/MINIMUM WAGE/TIP CREDIT**—H.R. 5970—Supporters of the minimum wage increase from both parties told Republican leaders they would block a motion to adjourn for the August recess if they didn't get a chance to vote for the minimum wage increase. But instead of bringing a clean minimum wage bill to the floor, Republican leaders combined the minimum wage increase with a bill to eliminate the estate tax and extend certain other expiring tax provisions. The Democrats strongly objected to tying the minimum wage increase to the tax cut for a small number of the wealthiest estates, worth more than \$5 million, a tax cut that would cost the U.S. Treasury over \$750 billion. Also a "tip credit" provision that amounted to a substantial pay cut for tipped employees in at least seven states had been snuck into the bill. Rep. George Miller (D-Calif.) offered a motion to strip out the estate tax, the so-called "tip credit" provision, and force a clean vote on the minimum wage. It failed 190-220 on July 29 on a 190-220 vote. **Y=R; N=W**, (R:2-214; D:187-6; I:1-0)

14. **VOTING RIGHTS/"POLL TAX"**—H R. 4844—The bill requires all voters to present a government-issued ID proving U.S. citizenship before voting in federal elections. Only 25 percent of voting-age Americans have passports, and the overwhelming majority of state-issued drivers licenses do not record citizenship, so the bill would require millions of voters to obtain a new federally issued photo identification card in order to vote. H.R. 4844 amounts to a modern day "poll tax" that is designed to suppress voter turnout of elderly and low-income voters, and appeal to growing anti-immigrant sentiment. The bill passed Sept. 20 on a 228-196 vote. **Y=W; N=R** (R:224-3; D: 4-192; I:0-1).

VOTE KEY**R = VOTED RIGHT****W = VOTED WRONG****A = ABSENT / DID NOT VOTE YEA OR NEY****S = SPEAKER****I = NOT IN OFFICE**

* = A Republican Representative who signed key letters in support of the AFL-CIO's legislative agenda, supported pro-labor amendments in committee and/or co-sponsored labor-backed bills.

2006 Senate Final Voting Record

1. **ALITO NOMINATION**—After lengthy battles to fill two Supreme Court vacancies that began with the confirmation of Chief Justice John Roberts to replace William Rehnquist and continued with the withdrawal of nominee Harriet Miers to replace Justice Sandra Day O'Connor, the Senate confirmed Third Circuit Judge Samuel A. Alito Jr. to fill the O'Connor seat. O'Connor was considered the key swing vote on the court, so Alito's nomination was seen as fulfilling President Bush's pledge to move the court further to the right. The AFL-CIO opposed Alito because many of his prior decisions limited the ability of workers bringing lawsuits to get the full protection of federal laws covering wages and hours, health and safety, pensions and discrimination. Alito was confirmed Jan. 31 on a 58-42 vote. **Y=W; N=R** (R:54-1; D:4-40; I:0-1).
2. **BUDGET RESOLUTION/SPENDING CUTS**—S. Con. Res. 83—Based on Bush administration recommendations, the fiscal year 2007 budget resolution called for cuts, or underfunding, in many vital working family programs. Sens. Arlen Specter (R-Pa.), Tom Harkin (D-Iowa) and Edward Kennedy (D-Mass.) offered an amendment to increase funding for labor, health and education programs by \$7 billion. The amendment passed March 16 by a 73-27 margin. **Y=R; N=W** (R:28-27; D:44-0; I:1-0)
3. **BUDGET RESOLUTION**—S. Con. Res. 83—The Bush administration budget plan outlined in the FY 2007 budget resolution called for substantial cuts in Medicare and Medicaid and other programs that strengthen and improve jobs, health care and education. But even these proposed cuts do not offset the huge tax cuts—mainly for the wealthy—called for by the White House. In fact, the budget resolution would add \$266 billion to the deficit over the next five years, and the \$873 billion spending cap would result in a significant loss of federal support for education, veterans' medical care, law enforcement, transportation and other vital services for millions of Americans. The resolution passed March 16 on a 51-49 vote. **Y=W; N=R** (R:50-5; D:1-43; I:0-1)
4. **BUDGET RECONCILIATION**—H.R. 4297—Congress adjourned in December without passing the fiscal year 2006 budget reconciliation bill that contained President Bush's fifth round of tax cuts for the rich. By May, however, the Republican leadership had lined up enough support to pass a \$70 billion tax cut. Nearly half of the benefits in H.R. 4297 would help households with incomes of more than \$1 million, and 55 percent of the benefits would go to the 3 percent of households with incomes above \$200,000. Contrary to Bush administration claims that the bill benefits middle-income tax payers, the three-quarters of U.S. households with incomes below \$75,000 would receive just 5 percent of the tax benefits, and 68 percent of U.S. households would receive no tax benefits at all. The bill passed May 11 by a 54-44 count. **Y=W; N=R** (R:51-3; D:3-40; I:0-1)

5. **HEALTH CARE**—S. 1955—This legislation would affect more than 80 million people who have health insurance. It gives insurance companies broad authority to determine health care coverage and costs, including the power to eliminate consumer protections that are now required under existing state laws (e.g. cancer screenings and well-child visits). The bill would mean that insurers could offer bare-bones plans that appeal only to younger and healthier workers, prompting premiums to increase for people who need health care the most, such as older workers. A motion to end debate on the bill failed May 11 on a 55-43 vote. **Y=W; N=R** (R:53-1; D:2-41; I:0-1).
6. **IMMIGRATION/GUEST WORKERS**—S. 2611—The comprehensive immigration reform bill included a new program to admit 500,000 guest workers per year on H-2C visas in a variety of occupations. The new visa program lacked sufficient protections for existing wages and benefits. The H-2C visa program would allow employers to petition for temporary workers without a requirement that the work be seasonal or truly temporary, essentially granting employers the ability to turn long-term, skilled work into temporary jobs filled with an easily exploitable workforce, resulting in lower pay and benefits for all. Sen. Byron Dorgan, (D-N.D.) offered an amendment to strike the new H-2C visa program from the bill. The amendment was tabled (killed) on May 16 on a 69-28 vote. **Y=W; N=R** (R:46-7; D:22-21; I:1-0)
7. **IMMIGRATION/GUEST WORKERS**—S. 2611—The new H-2C guest workers program included in the immigration reform bill also contained a provision to allow an automatic 20 percent increase each year above the initial 500,000 visa limit. Sen. Jeff Bingaman (D-N.M.) offered an amendment to reduce H-2C non-immigrant guest worker visas from 500,000 to 200,000 per year and eliminate the 20 percent increase per year. The amendment passed by a voice vote after a motion to table it failed May 16 on an 18-79 vote. **Y=W; N=R** (R:15-38; D:3-40; I:0-1)
8. **IMMIGRATION/LEGALIZATION PROGRAM**—S. 2611—The comprehensive immigration reform bill included a complicated, three-tier plan to grant legal status to the millions of undocumented workers currently in the United States by separating undocumented immigrants into three groups based on how long they have lived and worked here. Each group would face different criteria to earn permanent resident status. The complexity and uncertainty of the proposal would likely mean that many undocumented workers would not participate. Putting undocumented workers in a legal status and offering them protection under the law is the best way to ensure that all workers are able to assert their rights against unscrupulous employers. Sen. Dianne Feinstein (D-Calif.) offered an amendment to simplify the process and to allow any undocumented worker who was in the country as of Jan.1, 2006, to qualify for legal status and a path to permanent residency. The amendment failed May 23 by a 37-61 vote. **Y=R; N=W** (R:1-53; D:35-8; I:1-0)

9. **IMMIGRATION/LABOR LAW ENFORCEMENT**—S. 2611—The comprehensive immigration reform bill contained no strong enforcement tools for labor law violations. Strong enforcement is needed to preserve workplace standards and to ensure that neither domestic nor immigrant workers are exploited. Sen. Edward Kennedy (D-Mass.) offered an amendment that included provisions to make “willful” or “grossly negligent” safety and health violations of the Occupational Safety and Health Act (OSHA) a criminal felony, to provide back pay to undocumented workers in cases of employer wage-and-hour violations and to increase fines for wage-and-hour infractions and OSHA violations. The motion was tabled (killed) on May 23 on a 57-40 vote. **Y=W; N=R** (R:54-0; D:3-39; I:0-1).
10. **ESTATE TAX REPEAL**—H.R. 8—President Bush and Republican congressional leaders have long sought to repeal the federal tax on wealthy estates at the same time when critical domestic programs are being squeezed as a result of earlier Bush tax cuts for investors and wealthy families. Not only would repeal of the estate tax benefit just the wealthiest 0.5 percent of the wealthiest estates, the proposal would cost nearly \$1 trillion between 2012 and 2021. Future generations of workers, students and the elderly should not be asked to shoulder the added burden of paying for more tax cuts for the super rich. In addition, the media campaign to repeal the estate tax has been bankrolled by 18 wealthy families whose net worth exceeds \$185 billion. A cloture motion to end debate on the bill failed June 8 on a 57-41 vote. **Y=W; N=R** (R:53-2; D:4-38; I:0-1)
11. **MINIMUM WAGE**—S. 2766—The federal minimum wage of \$5.15 an hour has not been raised since 1997. Because of inflation, its purchasing power is at its lowest level in 51 years. However, since 1997, Congress has raised its own pay eight times for a total of \$31,600, almost three times the annual income of full-time minimum wage workers—another \$3,300 a year raise is likely later this year. Sen. Edward Kennedy (D-Mass.) offered an amendment to the Defense Authorization bill to increase the minimum wage from \$5.15 an hour to \$7.25 over 26 months. On June 21, the Senate voted, 52-46, for the Kennedy amendment, which nevertheless failed because it did not get the 60 votes required due to procedural objections. **Y=R; N=W** (R:8-46; D:43-0; I:1-0)
12. **TRADE/OMAN FREE TRADE AGREEMENT**—S. 3569—The Oman Free Trade Agreement expands the failed model of the North American Free Trade Agreement (NAFTA) and Central American Free Trade Agreement (CAFTA). Like NAFTA and CAFTA, the Oman agreement does not contain adequate environmental protections or enforceable protections for such core worker rights as the freedom of association. Oman is not a democracy, and its workers are unable to form independent unions or to bargain collectively. At the same time, the agreement allows any company incorporated in Oman to sue the U.S. government, undermining the ability of state and local governments to protect public health, strong communities and the environment. The bill passed June 29 on a 60-34 vote. **Y=W; N=R** (R:48-5; D:11-29; I:1-0).

13. **VOTING RIGHTS ACT FINAL PASSAGE**—H.R. 9—The Fannie Lou Hamer, Rosa Parks, and Coretta Scott King Voting Rights Act Reauthorization and Amendments Act of 2006 is a direct response to the evidence of continuing voter discrimination. The bill renews critical provisions of the Voting Rights Act for 25 years and restores the ability of the U.S. attorney general to block implementation of voting changes motivated by discriminatory purposes. The bill also clarifies that Section 5 is intended to protect the ability of minority citizens to elect their candidates of choice and authorizes recovery of expert witness fees in Voting Rights Act enforcement lawsuits. The bill was approved July 20 on a 98-0 vote. **Y=R; N=W** (R:53-0; D:44-0; I:1-0)
14. **ESTATE TAX AND MINIMUM WAGE**—H.R. 5970—After the House passed H.R. 5970, a package that combined an increase in the federal minimum wage from \$5.15 to \$7.25 an hour with “poison-pill” provisions that would slash the estate tax and cut pay for tipped workers, the Republican leadership of the Senate refused to strip the poison-pill provisions and allow the Senate to vote on a minimum wage increase with no strings attached. Democrats strongly objected to attaching poison-pill amendments to a minimum wage increase. In June, the Senate had already rejected one of those provisions—legislation to gut the estate tax—and for good reason. The estate tax provisions of H.R. 5970 would blow a \$753 billion hole in the federal budget, and those costs would ultimately have to be paid for with budget cuts in programs that serve working people, such as Medicare, Medicaid, veterans’ programs and unemployment insurance. This would not be a fair deal for working people, since H.R. 5970 would give an average tax cut of \$1.3 million to the richest 8,200 estates in the country. Another poison pill in H.R. 5970 would have cut pay for up to 1.1 million tipped workers in seven states by as much as \$5.50 per hour, or \$11,440 per year. The Senate killed H.R. 5970 by failing to muster the necessary 60 votes to overcome procedural hurdles. The final vote on Aug. 3 was 56-42. **Y=W; N=R** (R:52-3; D:4-38; I:0-1).
15. **PRIVATIZATION/CONTRACTING OUT**—H.R. 5631—The Bush administration has led a major effort to outsource and privatize hundreds of thousand of federal jobs, including those of 350 workers at Walter Reed Army Medical Center. According to the Army's own documents, the projected (and unverified) savings from contracting out was \$7.4 million. But the cost of the outsourcing study—estimated between \$12.7 and \$21.7 million—was more than the projected savings. Unlike private contractors who can appeal contracting out decisions based on the merits, neither the federal managers nor the federal workers are allowed to appeal. Sens. Barbara Mikulski (D-Md.) and Paul Sarbanes (D-Md.) offered an amendment to the fiscal year 2007 defense appropriations bill to block the privatization effort but Sen. Ted Stevens (R-Ak.) made a motion to table, or kill, the Mikulski/ Sarbanes amendment. The motion to table passed Sept. 6 on a 50-48 vote. **Y=W; N=R** (R:50-5; D:0-42; I:0-1).

*** EMPLOYEE FREE CHOICE--S. 842--** The Employee Free Choice Act would that ensure when a majority of employees in a workplace decides to form a union, they can do so without the debilitating obstacles employers now use to block their workers' free choice. The Employee Free Choice Act allows workers to freely choose whether to form unions by signing cards authorizing union representation. It also provides mediation and arbitration for first-contract disputes and establishes stronger penalties for violations of employee rights when workers seek to form a union and during first-contract negotiations. The legislation never came to a vote in 2006. The Senate bill won 42 cosponsors. It is included in the Voting Record but not included in the year-end or lifetime percentages.
