1. Postal Service Reform Act

H.R. 3076 · February 8, 2022
Position Good for working people
Outcome Passed YEAs 342 NAYs 92
This bill would bring financial stability to the Postal Service. First, it eliminates the mandate that the Postal Service pre-fund its retiree health care benefits decades in advance, a requirement asked of no other public or private agency. Second, it adopts private sector best practices by maximizing the integration of postal annuitants into Medicare – a program to which the Postal Service and its workers have contributed over \$34 billion. Additionally, the legislation benefits the public by codifying the mandate to provide six-day mail delivery.

H.R. 3967 · March 3, 2022
Position Good for working people
Outcome Passed YEAs 256 NAYs 174
The PACT Act addresses a number of VA healthcare issues. It extends VA healthcare eligibility to veterans and extends presumptions to conditions relating to burn pit, toxic-exposure and Agent Orange exposure. Veterans will benefit from a simplified eligibility process and VA staff will be able to process their claims without delay. The legislation will improve the ability of VA healthcare staff to provide services for veterans exposed to toxic substances and make long needed investments in the claims process, medical personnel, claims personnel and facilities to improve access to all eligible veterans.

3. FAIR Act

H.R. 963 (Amendment #1) · March 17, 2022
Position Bad for working people
Outcome Failed YEAs 184 NAYs 246
The AFL-CIO opposed the vote for the Fitzgerald Amendment to the FAIR Act as it was a blatantly anti-union amendment that sought to undermine union workers by voiding their negotiated dispute resolution procedures. Collectively bargained arbitration clauses covering contract disputes pose none of the dangers threatened by “agreements” forced on unrepresented, individual employees by their employers as a condition of employment.

Position Good for working people
Outcome Passed YEAs 220 NAYs 201
The Act would provide TSA officers with the same statutory rights to union representation, due process and fair pay under title 5 of the US code as most other federal workers, including uniformed officers at other Department of Homeland Security agencies.

The CHIPS Act of 2022, which contains \$52 billion for investment in domestic semiconductor funding, including \$2 billion in funding for production of mature semiconductor technologies in the United States that are necessary to the production of cars, trucks, and agricultural equipment. 8. Inflation Reduction Act

H.R. 5376 · August 12, 2022
Position Good for working people
Outcome Passed YEAs 220 NAYs 207
By making historic investments in domestic energy production and manufacturing, bringing down the cost of prescription drugs and expanding coverage under the Affordable Care Act, this bill offers our country a real chance to build a safer, healthier, and cleaner future. The Inflation Reduction Act will dramatically lower the cost of clean energy, positioning the U.S. to make deep carbon emission reductions, while preserving and creating millions of family supporting jobs, and manufacturing more critical technology here at home. The package also initiates major health care reforms by authorizing Medicare to tackle the skyrocketing cost of prescription drugs and preventing premium hikes for 13 million Americans covered under the Affordable Care Act. Finally, the bill provides much needed reform to our tax system, which has allowed the mega-rich and the biggest corporations to pay far too little for far too long.

9. Presidential Election Reform Act

H.R. 8873 · September 21, 2022
Position Good for working people
Outcome Passed YEAs 229 NAYs 203
The Presidential Election Reform Act (H.R. 8873) would help prevent another attempted coup following a Presidential election by ensuring that the electoral votes tallied by Congress accurately reflect each state's public vote for President. It makes clear that the Vice President does not have the power to accept or reject disputes over electors and that state legislatures cannot override the popular vote in their states.

11. Veteran Service Recognition Act

H.R. 7946 · December 6, 2022
Position Good for working people
Outcome Passed YEAs 220 NAYs 208
This bill would provide vital protections for noncitizen veterans who have served our country with honor. The Act puts forth a series of provisions that would help repatriate our military veterans and prevent the unjust and arbitrary deportation of veterans in the future. Rather than leaving noncitizen veterans to navigate our complex immigration system on their own, H.R. 7946 would require U.S. Citizenship and Immigration Services the Department of Defense to facilitate opportunities for recruits and veterans to obtain U.S. citizenship and establish a committee to advise on any case involving the removal of a service member or veteran.
