As the head of OneWest Bank from 2009-2015, Mnuchin had received bailout funds after promising to assist families facing foreclosure during the financial crisis to stay in their homes. Under his leadership, a New York State Supreme Court judge described OneWest's foreclosure practices as "harsh, repugnant, shocking and repulsive." Mnuchin was confirmed by the Senate.

6. Confirmation of Mick Mulvaney for Director of the Office of Management and Budget

	February 16, 2017
Position	Bad for working people
Outcome	Passed YEAs 51 NAYs 49
	Mick Mulvaney, elected to Congress as a member of the 2010 Tea Party wave, was a harsh critic of government spending on Medicare, Medicaid and other income support programs, and even called Social Security a "Ponzi Scheme." Mulvaney's vote to shut down the government in 2013 and consistent opposition to spending on infrastructure made him spectacularly unfit to be the nation's chief budget officer. Mulvaney was confirmed by the Senate.

10. Confirmation of Neil Gorsuch to the United States Supreme Court

	April 7, 2017
Position	Bad for working people
Outcome	Passed YEAs 54 NAYs 45
	Judge Neil Gorsuch's record on the U.S. Court of Appeals for the Tenth Circuit demonstrates that he is far more likely to rule in favor of corporate interests and against the interests of working men and women. He routinely rules against workers in health and safety cases; he regularly rejects the claims of employees seeking relief from discrimination in the workplace; and he frequently denies workers' efforts to secure earned wage and benefits. Based on this review and the evasive answers he provided during his confirmation hearing, we are compelled to oppose Judge Gorsuch's nomination to be an Associate Justice on the Supreme Court of the United States.

	H.Con.Res. 71 · October 19, 2017
Position	Bad for working people
Outcome	Passed YEAs 51 NAYs 49
	This resolution establishing the congressional budget for FY2018 cuts programs like Medicare, Medicaid and other income security programs that provide critical support to our nation's most vulnerable population by \$4.1 trillion over the next decade to pay for trillions of dollars in tax giveaways for millionaires and major corporations. The fiscal blueprint would also cut discretionary spending, including funding for education, infrastructure, job training, housing assistance and financial aid for college students by \$800 billion. By 2027, spending on domestic priorities as a share of the economy would be the lowest it has been since the Hoover Administration. The resolution passed the Senate amended; the House agreed to the Senate amended budget resolution without amendment.

H.R. 1 · December 20, 2017
Position Bad for working people

This bill amends the Internal Revenue Code in a way that makes working people pay the price for massive tax giveaways to millionaires and wealthy corporations. In addition to lowering the top tax rate for wealthy individuals and reducing the corporate rate by nearly 40%, the bill lowers the tax rate on offshore profits to zero, which gives corporations a giant incentive to move American jobs offshore. The bill also eliminates the Affordable Care Act's individual mandate, which will mean the loss of health care for 13 million Americans and a 10% premium increase, on average. The bill passed the House and Senate, was signed by President Trump and became law on December 22, 2017.
