HOUSE OF REPRESENTATIVES

1. Pandemic is Over Act

H.R. 382 · January 31, 2023
Position Bad for working people
Outcome Passed YEAs 220 NAYs 210
House Republicans were determined to stop the federal government's response to COVID-19, despite thousands of lives still being lost every week and ongoing strain on health care workers. The bill would curtail important aspects of the government's response, eliminating access to testing and treatment, and causing millions of Americans to abruptly lose Medicaid coverage.

2. Congressional Review Act resolution to block the Department of Labor rule relating to "Prudence and Loyalty in Selecting Plan Investments..."

H.J. Res. 30 · February 28, 2023
Position Bad for working people
Outcome Passed YEAs 216 NAYs 204
This resolution would have overturned a Department of Labor (DOL) rule that permits private sector retirement plan trustees to consider environmental, social and governance (ESG) factors when selecting retirement investments. The DOL rule is consistent with trustees' fiduciary duties because prudent investment requires the consideration of all relevant information which includes ESG factors.

3. Limit, Save, Grow Act of 2023

H.R. 2811 · April 26, 2023
Position Bad for working people
Outcome Passed YEAs 217 NAYs 215
This bill would slash domestic spending by \$144 billion, cutting vital programs by up to 22%. The cuts would jeopardize Medicaid coverage for 10 million low-income Americans, eliminate food assistance for millions of families and cancel debt relief for 40 million student borrowers. The plan also would jeopardize funds for veterans' medical care, clean energy projects, COVID-19 vaccines and public transit subsidies.

4. Secure the Border Act of 2023

H.R. 2 · May 11, 2023
Position Bad for working people
Outcome Passed YEAs 219 NAYs 213
Rather than uphold humanitarian principles and protect the rights of all workers regardless of immigration status, this punitive immigration bill focuses on deterrence, detention and removal. It would restrict asylum, reduce protections for children, limit relief options, erode due process, allocate funds for a border wall, cut humanitarian program funding, and support detention and deportation.

5. Protecting Taxpayers and Victims of Unemployment Fraud Act

H.R. 1163 · May 11, 2023
Position Bad for working people
Outcome Passed YEAs 230 NAYs 200
Rather than targeting intentional fraud, as the Department of Labor Office of Inspector General recommended, this bill would penalize unemployment insurance (UI) recipients for inadvertent errors in program administration. It would suspend the requirement that merit-based public employees administer the UI program for seven years, undermining program stability and expertise.

Position Bad for working people
Outcome Passed YEAs 218 NAYs 203
This resolution aimed at overturning President Biden’s student debt relief program would have denied relief from a broken student loan system to 43 million individuals. Ninety percent of the beneficiaries of Biden’s program earn less than \$75,000 a year.

7. Regulations from the Executive in Need of Scrutiny Act of 2023 (REINS Act)

H.R. 277 · June 14, 2023
Position Bad for working people
Outcome Passed YEAs 221 NAYs 210
The REINS Act is an extreme measure jeopardizing federal agencies’ ability to issue important rules that protect workers and the public overall. The bill would mandate congressional approval for all major rules within 70 legislative days, allowing politics, not scientific judgment, to dictate regulatory actions. This legislation is harmful and unnecessary; Congress already has mechanisms to disapprove or block rule implementation without the need for additional, burdensome requirements.

8. Separation of Powers Restoration Act of 2023

H.R. 288 · June 15, 2023
Position Bad for working people
Outcome Passed YEAs 220 NAYs 211
This bill would undermine the principle of separation of powers, a fundamental element of our government, by upsetting long-standing principles of judicial review of agency interpretation of laws and regulations. It would prevent courts from deferring to agencies’ expert interpretations of ambiguous laws. Instead, it would mandate that courts substitute their own judgment, shifting power to unelected judges and undermining agency expertise. This change could jeopardize public health, safety and financial security.

Position Good for working people
Outcome Passed YEAs 335 NAYs 91
This short-term continuing resolution averted a government shutdown by funding operations until Nov. 17, 2023. It addressed the Republican blockade of bipartisan appropriations bills, extended the Federal Aviation Administration’s authorization and safeguarded pay for federal firefighters. The resolution also extended critical health care programs, preventing hardships for workers, military personnel, air traffic controllers, and beneficiaries of the food assistance programs known as SNAP and WIC.

This resolution aimed to overturn President Biden’s student debt relief program addressing the long-standing student debt crisis that hinders economic security for millions. Reversing the bipartisan payment pause and forcing repayment would disproportionately affect those earning less than \$75,000 annually, as they constitute 90% of beneficiaries.
